Subject: Car Park

Dear Mrs Franks

Blackpool and Start Estate – Stoke Fleming Neighbourhood Plan

I am writing to confirm that we would be happy in principle for the Neighbourhood Plan to allocate an area of land for some additional car parking in the vicinity of the junction of Mill Lane and Church Road, similar in scale and location to that shown on the plan dating from April 2008, showing the position that was reached previously in the discussions with the Parish Council.

The need for additional parking near the centre of the village has long been evident, and we hope that on this occasion it can be brought to a successful conclusion, for the benefit of the community.

Yours sincerely

Robert Newman
