Subject: FAO Mr Graham Swiss

Dear Mr Swiss

Please find attached a copy of my email to Stoke Fleming Parish Council. We have been encouraged by the Parish Council to put forward the land, as shown on the plan in the email, for consideration for development as part of their Neighbourhood Plan process. Stoke Fleming Parish Council are wanting to use part of our land for a footpath which would serve the local school and community. Development of the land is likely to enable a path through roughly the middle of the site to be possible which would provide a direct path from the land to the west, on which a housing estate is currently being developed, and the driveway to the east of our site.

I understand that we need to advise South Hams of our submission to Stoke Fleming Parish Council so that all parties can consider the potential.

If you require any further information from us please do contact me.

Yours sincerely,
Graham

Graham Davies
